

## DMR-152SET - Multiplex Recorder S

**H.264, the High-efficiency Standard for Video Compression.** Compared with previous standards, the data rate will be reduced by half at the same quality. As opposed to customary MPEG-4 standard, it is thus possible to double the recording time with the same hard disk size. Video surveillance set, consisting of a 4-channel digital recorder and 2 colour cameras TVCCD-150SET. **4-channel digital recorder DMR-152:**

- Including 500GB hard disk (SATA)
- H.264 compression method
- Network connection for access via Internet Explorer
- VGA output and BNC output for video signal
- 4 x audio input and 2 x audio output
- Fanless, ideally suited for office and private environments
- Data export via USB flash drive or network connection
- Remote access via smartphone (iPhone, Android, BlackBerry, Symbian and Windows mobile)
- Video motion detector: 12x12 sensor surfaces for each camera with adjustable sensitivity

**2 colour cameras TVCCD-150SET, IP66,** for outdoor applications:

- Day/night function
- Fixed focus lens (3.6mm)
- 12 infrared LEDs with automatic activation (IR operating range: 10m max.)
- Automatic switching from colour operation to B/W operation, depending on the illumination
- Supplied with sunshield, wall bracket and camera connection cable

For further specifications, please refer to the individual items. Built-in hard disk! Almost silent operation due to fanless cooling concept!
